

IN THE SPECIAL IMMIGRATION APPEALS COMMISSION

BETWEEN:

W and Others

Appellant

and

THE SECRETARY OF STATE FOR THE HOME DEPARTMENT

Respondent

NOTE

These judgments were drafted, approved by all members of the panel and submitted to the FCO for vetting before the French intervention in Mali and the incidents at In Amenas. If those events prove to have a material impact on the situation in Algeria it is unlikely to be capable of being definitively assessed for many months. Accordingly, we see no reason to defer handing down our judgments, based on the material available to us at the hearing.

[This note is drafted with the approval of the 2 legal members of the panel. The third is not contactable.]
